

A FoodService Distributors View

Oils ain't Oils!

Taking a Product to Market!

Roscoe Richmond

Global Food **&** Wine

Operator Choice Mechanics

- Diversity of people, knowledge & driving issues
- Chefs Choice? Ease, Quality, Relationship!
- Management Choice? Price, Benefits, Relationship!

Quality? Health?

- 95% of Manufacturers focus on the quality aspects!
- Less than 10% of FoodService Operators place “highest” Quality first & foremost!
- **Perception:** Modern Manufacturing standards, technology & procedures ensure an acceptable Quality standard!
- Quality is difficult to sell! Arbitrary! Expected!

Components of Sale-ability!

- QUALITY
- PRICE
- AVAILABILITY
- CONSISTENCY
- **Cost of use**
- **Trust**
- **Trading Terms**
- **Ease of Trading**
- **Other Advantages:**
 - Re-usable packaging
 - Individuality
 - Recognition
 - Preparation reduction
 - Loyalty program

Price V's Cost

Cost of using a product is often obscured by the price!

Price is offset by:

Quantity used as opposed to opposition!

Less labor required in preparation!

Additional benefits!

Consumer preparedness to meet price!

Distributor Knowledge is the key!

Push/Pull Marketing

- Push ~ Advertising, Manufacturer Focus, Price
- Pull ~ Incentives, Benefit, Advantage
- Manufacturers PULL through Distributors
- Distributors PUSH through FSO's

Who owns the product??

- Distributor owns the product
 - High margin ~ 35% plus
 - Exclusive distribution within territory
- Manufacturer owns the product
 - Lower margins ~ 20%
 - High volume sales & support

Business Without Hurdles

- Interest is built on products, Business IS built on relationships!
- Representation is required!
Ownership!
- Product information/training for Distributors & Operators staff
- Attitude of Partnership!

Product to Market!
